Dear valued Partners,

At Cumberland Additive, we are here to serve you and your needs remain a top priority! We are carefully monitoring our highly skilled workforce for any signs of COVID-19. We have implemented many new Safety procedures to keep everyone protected.

We appreciate when our suppliers and customers visit our state-of-the-art facility; however, for now, we cannot entertain any visitors at our facility as result of the current events. Instead, please call us! We are using video calls, virtual tours, and technical collaboration to ensure your critical needs are met.

Additionally, you will be pleased to know that Cumberland has offered our services to print much needed medical supplies for domestic and global consumption.

With the aforementioned policies and procedures in place we are continuing to operate and advance manufacturing for our customers, employees and community. We will continue to closely monitor the situation as it transpires, and we will update you if there are any significant changes to our operations. In the meantime, if you have any questions please find our e-mail and phone number below.

Be Smart and Stay Healthy!

A handwritten signature in black ink that reads 'John Jenkins'.
